

Daniel Onuoha

Full-Stack Web Developer | Software Engineering Student

Awka, Anambra State | +234-8128946669 | dannyelonuoha@gmail.com | dannyelonuoha.github.io

PROFESSIONAL SUMMARY

Full-stack web developer and Software Engineering student with 4+ years of hands-on experience designing, building, and deploying production web applications. Proficient in React (TypeScript/TSX) and Laravel, with experience building social platforms, multi-tenant SaaS products, and role-based access systems. Comfortable owning projects end to end, from database schema design and API development through deployment and production support.

TECHNICAL SKILLS

Languages: TypeScript, PHP, HTML5, CSS3.

Frameworks & Libraries: Laravel, React (TSX), React Native, Tailwind CSS.

Databases & Backend: MySQL, Supabase (PostgreSQL, Auth, Row-Level Security, Edge Functions), REST API design.

Tools & Platforms: Git, Composer, cPanel deployment, Paystack, Stripe.

Concepts: Multi-tenant SaaS architecture, role-based access control, responsive/mobile-first design, QR-based verification systems.

PROJECT EXPERIENCE

Full-Stack Developer — Excellent Int'l Standard Schools, Aba (eisschools.com) | 2025 - Present

- Built a custom school management platform using a React/TypeScript frontend and Supabase (PostgreSQL, Auth, Row-Level Security, Edge Functions) backend.
- Implemented modules for attendance, exam results with editable report cards, fee collection via Paystack, timetabling, and behaviour tracking.
- Designed drag-and-drop template editors for ID cards and report cards, including custom CSS styling support.
- Built a computer-based testing (CBT) engine with timed multiple-choice exams, post-answer explanations, and a results review screen.
- Developed a camera-based QR result-verification scanner with a manual fallback code for offline checks.
- Implemented branch-level role restrictions so admins and staff manage only their own school branch, with a central super-admin role spanning all branches.

Full-Stack Developer — Nzuko Students (nzukostudents.com.ng) | 2024 - Present

- Developed a full-stack student social platform using React (TSX) and Supabase, backed by a structured relational database schema.
- Implemented role-based access control across user, admin, and super-admin roles.
- Delivered the platform in 10 planned batches, shipping features including community chat, post interactions, and a weekly email digest.
- Fixed responsiveness and navigation issues across messaging, community, and profile pages to improve mobile usability.

Web Developer — HettaNet, SEO, PPC & Web Design Agency (hettanet.com) | 2023 - Jun 2026

- Contributed front-end development work for a data-driven SEO, PPC, and web design agency serving small business clients.
- Built and styled responsive client-facing web pages using React (TSX), HTML, and Tailwind CSS.
- Supported website deployment and configuration to keep client sites running smoothly in production.

LEADERSHIP & EXTRACURRICULAR

General Secretary — Association of Software Engineering Students (UNIZIK) | 2026

- Serve as General Secretary, coordinating meeting records, official correspondence, and communication between the executive body and members.
- Support planning and execution of departmental and association programs and events alongside the executive committee.

EDUCATION

Nnamdi Azikiwe University | 2025 - 2029

B.Sc. (in progress), Department of Software Engineering

Relevant coursework: Software Engineering, Data Structures & Algorithms, Database Systems, Web Technologies, Mathematics, Physics

Leadership: General Secretary — Association of Software Engineering Students (ASES-NAU)
